Suppliers of your Requirements for Violins, Violas, Cellos and Double Basses

BRIDGE ELECTRIC INSTRUMENTS

We are pleased to now be main Stockists of the amazing Bridge Range of Electric Instruments. These fine Instruments include the Aquila 4 String Violin; the Lyra 5 String; and the Octave Violin, 4 String (tuned an octave down); the Draco Cello; and the Cetus Double Bass.

All of these instruments exhibit the unmistakable Bridge Headstock, based on the 1710 Stradivari Viola da Gamba, pointing out the pedigree of these beautiful instruments.

We have no hesitation in recommending these instruments as among the best, and will enhance your playing whilst looking amazing.

We are pleased to say that our prices are considerably lower than Bridge themselves, and that is with a full Luthier set-up, as opposed to a Factory set-up.

Currently we have in stock the Aquila and Lyra range of violins in the Standard Colour range, but at these prices they won't stay long. Octave Violin & Draco Cello and Cetus Bass to order only, sorry. Special finishes to order only, and are largely dependant on Bridge production, which can be spasmodic! Octave & Draco shown in special finishes)

Aquila 4 String Violin	£800
Lyra 5 String Violin	£950
Octave 4 String Violin (to order)	£980
Draco Cello (to order)	£2250
Cetus Bass (to order)	£2995

Suitable Amplification and systems also available, please request information from our Qualified Sound Expert.

COMMON FEATURES

Many of the features are common to all models: Moulded Kevlar, and carbon fibre composite body, for lightweight but tremendous strength.

Maple Neck & Stylised Open Headstock, carved from a single block

Headstock is a modified copy of a 1710 Stradivari Viol da Gamba.

Ebony Fingerboard shaped to professional standards.

Top quality Ebony Nut & Pegs

Neck hand coloured & finished with oils, for a fast smooth traditional finish.

Hand cut top quality bridge.

Aluminium Alloy tailpiece with adjusters (not Cetus, which has an ebony tailpiece)

Set Up to full professional standards by Bridge.

1/4" Jack Socket and Volume & Parametric Tone controls & readily obtainable easy to change batteries.
