'HEADCASE' Carbon Fibre Double Bass Case 16 kg

This case is made using purely laminates of the highest quality. Both carbon fibre and Kevlar are built up over several layers, in a tough epoxy resin, to give an unbeatable case in both strength and lightness.

Available in full range of glossy colours and handlined chenille interior in blue or light green, translucent exterior colours, below: **£2,560.00** for clear
Translucent Colours £40 extra
Black £38.50 extra

For Detailed Specification see below left.

(To special order. Generally 2 week delivery)

Headcase Full Specification: (both cases) (To special order. Generally 2 week delivery)

- Very strong, highly protective, durable shell
- Three real leather handles and three sprung, flight case handles
- Easy closing, non-scratch trim
- Easy closing catches, one padlockable catch (padlock supplied)
- Hand lined luxurious ripple chenille interior
- Adjustable body belt with soft sleeve and adjustable neck belt
- Pad system to ensure snug fit to your instrument
- Two bow holders
- Large rosin/string storage compartment
- For smaller, and particularly $\frac{7}{8}$, $\frac{3}{4}$ size, instruments extra interior tailoring can be done for which we will require a template of your bass. This will ensure a snug fit for your instrument, and is included in the price of either the Carbon Fibre or Hybrid Case.
- Comprehensive Wheeled system for ease of movement

Our Headcase prices are considerably lower than R.R.P.

As Main Stockists for Headcase we are occasionally able to obtain slight factory seconds, at discounted prices. Any faults will never affect structural integrity, but will generally be slight marking. Please ask!

We can of course also supply the Gage and Kolstein Bass Transporter's at good prices, but as the requirement for these is so small, these are to special order. Due to currency fluctuation, we will be happy to obtain the best quote when you order. Delivery of these cases can be protracted!
